

CTUIT'S REPORTING

Want insight into sales, COGS, labor and more? Need reports that are configurable to run by store or a group of stores or dates? Want to get key reports emailed to you or key staff on a routine basis?

Meet Reporting.

See the opportunities for improving performance with reports.

RADAR offers a large variety of reports to make your business run more efficiently.

Reports and Charts put restaurant insight into business practice through more than 200 business intelligence reports.

Gain insight into your restaurant's Sales, Labor, Forecasting, Accounting, Site Administration, Inventory & Recipes, Employee Data, Event Management, AP & Contracts, Manager Log and more with easy to navigate reports.

Get access to all of the business intelligence data you and your team need to effectively run your restaurant with one simple tool in RADAR.

Increase insight to improve performance at a glance with intuitive, easy to use reporting.

- Ability to set up report batches that can be emailed on a daily, weekly, monthly, or custom schedule
- Proven, valuable reports built using years of restaurant experience
- Valuable reports for single location owners, multi-unit operators, large enterprise executives and franchise royalty reporting
- Charts include drill down capabilities to the check level
- Report at the location level, across configurable groups of locations, or over the entire company
- Additional reports and charts become available with Inventory, Recipes, and Accounting modules

"RADAR goes beyond just a reporting tool, it goes along with how restaurant operators think."
 -Steve Zappacosta, Corporate Director of Food and Beverage, JACK Entertainment
